

PRODUCT DATA SHEET

15mm Galvanised Edge Bead 3.0M

Item: EBG3015

Description	EBG3015
Specification	The Profile Store range of Stop and Edge Beads are designed to reinforce the edges of plasterboard. The edges of the perforated face must be fixed flush to the face of the board prior to finishing. The edge bead profile is fixed to the board whilst in the process of installation, and provides edge protection at ceiling heads or window reveals.
Product Group	Drywall Bead
Product Category	Edge Bead
Material	Galvanised Steel
Material Thickness	0.45mm
Colour	Mill Finish
Reaction to Fire	D
Length	3.0m
